

11, March 2023

Dear Professor ,

It is our great pleasure to be able to inform you that the Josai Central European Scholarship Program will again be accepting students from Central Europe this year.

The program is designed to give students who have a keen interest in Japan, its people and culture, the opportunity to visit and study in-situ, while undertaking a further step in their own personal development.

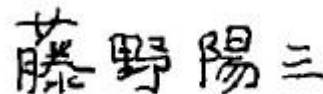

We are enclosing the Terms and Conditions and the application documents for the attention of the international relations office of your university. We look forward immensely to working together with you and warmly welcoming your students to the campuses of Josai University (JU) and Josai International University (JIU).

Allow us to respectfully express our deep gratitude for your continued support of the Josai Central European Scholarship Program.

Yours sincerely,

Kenji Sugibayashi, Ph.D.
President, Josai International University

Yozo Fujino, Ph.D.
President, Josai University
