

UNLOCK YOUR POTENTIAL IN SOIL AND GROUNDWATER MANAGEMENT

INTERACTIVE EVENT FOR YOUNG PROFESSIONALS

FOCUS OF THE TRAINING:

Dealing with complex soil and groundwater contamination

This training is designed for young professionals with 3–5 years of experience in the field. Our case-based learning approach will immerse you in real-world scenarios, enabling you to develop practical skills and knowledge essential for tackling complex soil & groundwater contamination challenges.

KEY HIGHLIGHTS OF THE TRAINING:

- Engage in Case-Based Learning: Work collaboratively on real cases, focusing on advanced conceptual site models (CSMs), contaminant behavior, data interpretation, gap analysis and scenario development.
- Topics in this training include:
 - Contaminant behavior and characteristics
 - Reactive transport
 - Advanced conceptual site models and data interpretation
 - Distillation of the real problem in complex cases, and provide clear advice
- Network with peers: Connect with fellow professionals and enhance your international collaboration skills.
- Limited spots available: To ensure an effective learning experience, we have a maximum number of participants. Don't miss your chance to secure your spot!

WHY ATTEND THIS TRAINING?

This training is a unique opportunity to enhance your expertise in soil and groundwater management, gain insights from experienced consultants, and become part of a growing international community of professionals dedicated to making a difference in the field.

DATE & TIME

12 November 2025
13.30–17.30 CET
