

The Pannónia Scholarship Programme – Study Mobility

The **Hungarian University of Agricultural and Life Sciences (MATE)** invites applications for participation in the Pannonia Scholarship Programme **student mobility programme** for those MATE students who wish to apply for a mobility scholarship for studies abroad within the framework of the Pannónia Programme.

At the Hungarian University of Agriculture and Life Sciences, the Pannonia Scholarship Programme is coordinated by the International Directorate, the application process is carried out by the Centre for International Education. Within the framework of the Pannonia Scholarship Programme, students who are successful in their application will have the opportunity to study abroad at one of the partner universities.

ELIGIBLE APPLICANTS ARE MATE STUDENTS WHO:

- students enrolled at any level of education, in any work schedule, at MATE (bachelor, master, doctoral and postgraduate, full-time and correspondence courses);
- have Hungarian citizenship, a registration certificate **or** a valid residence permit;
- have an active student status at MATE at the time of mobility; The mobility may start at the earliest after one completed semester of higher education studies.
- have an academic result (minimum 3.51, normal semester average),
- language skills (at least B2, recommended C1) that make them suitable for study abroad.

Students with 'graduated' and 'doctoral candidate' status are not eligible.

Students who are awarded a Stipendium Hungaricum scholarship are not eligible for long-term mobility during their studies.

PERIOD OF PARTICIPATION:

One semester or trimester (2-5 months) according to the academic year of the host institution, or up to 12 months (2 semesters) for a special programme.

STUDENT STUDY MOBILITY OPPORTUNITIES:

- 1) **Long-term study mobility for the entire academic year 2025/2026:** part-time training at one of our partner universities (1 or 2 semesters);
- 2) **Short-term study mobility for the spring semester of the academic year 2024/2025 (until 31 August 2025):** e.g. conference, summer university, block courses (2-30 days); Short mobility of at least 5-30 days will be preferred to mobility of at least 2 days.

LONG TERM STUDY MOBILITY (for the entire academic year 2025/2026)

The Pannonia Scholarship Programme – Study Mobility

Students may be awarded Pannonia Scholarship status for a minimum of 2 months and a maximum of 12 months per level of training. Undivided, one-tier MSc study programmes cover two cycles, so the maximum cumulative mobility period for an undivided study programme is 24 months.

Courses and credits completed abroad must be recognised as part of your studies in your home university, please contact the **Registrar's Office** for more information.

When preparing the application, it is the applicant's responsibility to check the websites of the partner universities to find out what courses are offered, in which language and at which level (bachelor or master). A minimum of 15 credits of courses related to the degree course must be taken.

ENTITLEMENTS AND OBLIGATIONS ASSOCIATED WITH PANNONIA SCHOLARSHIP STATUS:

- Scholarship holders have the same rights and obligations at the host institution as students at the university. Students at the host university are exempt from paying tuition fees and from paying any fees (e.g. registration fees, examination fees, laboratory fees or library fees) which are not payable by students at the host university. However, they must pay any fees that the students of the host university must also pay.
- During the period of mobility, they must be enrolled as an active student at the Hungarian University of Agricultural and Life Sciences and any MATE tuition fees must be paid in the form set out in the Student Regulations. Students are entitled to MATE study grants and social benefits during their period abroad.
- Studies abroad are recognised by the University, which offers students the possibility of replacing part or all of their study commitments at home.
- The two partner institutions and the student agree before the mobility on the courses the student will follow at the foreign university (Mobility Agreement for Studies).
- At least 15 ECTS credits of relevant courses must be successfully completed at the host university. The activities undertaken during the mobility must fit in with the student's study plan.
- The student must be an active student at the sending institution until the end of the mobility.

ADDITIONAL AND IMPORTANT INFORMATION about the Pannonia Scholarship Call

(please do not submit your application without reading and accepting these)

The Pannonia Scholarship Programme – Study Mobility

1. The duration of the mobility period is limited to a maximum of 12 months per study cycle, regardless of the number and type of mobility activities:

- in the first cycle of study (bachelor or equivalent, EQF level 6),
- in the second cycle of study (master's degree or equivalent - level 7 under the EQF); and
- in the third cycle as a doctoral student (doctoral level or level 8 in the EQF).

2. Grants are awarded only for the duration of physical mobility.

3. Please note that the scholarship does not necessarily cover all the costs of the period abroad, which may need to be supplemented by other sources, sometimes by pre-financing.

4. An extension of the mobility period can be requested in a written form to the campus coordinator at least 1 month before the end of the mobility.

5. 15-20 credits of courses are recommended to be taken at the host university during the semester abroad (~15-20 credits of professional courses, the rest can be language, culture, sports, other optional subjects), of which 15 credits of professional courses must be completed with successful examinations. If the student fails to complete the minimum 15 credits, a pro rata share of the scholarship might be claimed back.

6. If the student's application is accepted, **the student will be nominated by MATE to the partner university**, after which the student must contact the host university by the deadline set by the host university. Filling in the application form(s) of the host institution, choose the courses (to be indicated on the Learning/Mobility Agreement) from the list of courses of the partner university. All this requires independent work, all the necessary information is available on the host institutions' websites (just search for "Erasmus" or "Erasmus incoming" on the relevant website), and the coordinators at the host universities can help you via e-mail if you have any questions. The outgoing coordinator will answer any questions you may have and help you prepare and check your application documents - they will be signed/stamped. Before departure, the student signs a grant contract with the Hungarian University of Agricultural and Life Sciences, which specifies the amount of the grant, the transfer method and the student's obligations. It is not possible to go abroad without a grant contract.

7. **The student is responsible for his/her own accommodation.** Some universities have dormitory accommodation, but you may have to look for rent. Please check the website of the host university.

8. The scholarship will be transferred by MATE to the account indicated by the student after the Pannonia grant contract has been signed. The payment will be made in one or more

The Pannónia Scholarship Programme – Study Mobility

instalments in HUF. In general, 90% of the scholarship will be paid before the departure and 10% after returning home, submitting the compulsory documents at the end of the Pannonia semester.

9. In the first weeks of your stay, expenses are much higher than later, as accommodation usually requires a deposit on arrival (some require a deposit on booking) and additional insurance. For information on the specificities and expectations of the foreign universities, please contact the scholarship holders of previous years (contact details can be obtained from the outgoing coordinator).

10. European Health Insurance Card

The European Health Insurance Card is not a replacement for travel insurance! In the case of mobility within EU, the national health insurance of the participant provides basic cover for the duration of the stay in another EU country through the European Health Insurance Card. However, this may not always be sufficient in all situations, such as repatriation or special medical treatment. In this case, you may need supplementary private health insurance. Liability and accident insurance covers damage caused by or to the participant during the stay abroad. In addition, insurance against loss or theft of documents, tickets and luggage is recommended.

Further information and how to apply for the card can be found on the NEAK website (https://www.neak.gov.hu/felso_menu/lakossagnak/ellatas_kulfoldon/az_europai_egeszseg_biztositasi_kartya)

11. International student card

The ISIC is an international student card is valid in 133 countries and entitles the holder to a wide range of benefits at around 42,000 points of acceptance (travel, accommodation, museums, etc.). Full-time university students are eligible for the card. The easiest way to order it is online and then collect it at the designated travel agency. More information is available at www.isic.hu (<http://www.isic.hu/>)

12. For other questions, please contact the campus coordinator by e-mail or telephone.
